

# Domestic and Family Violence Essentials

## Overview

Domestic and Family Violence Essentials provides private lawyers with an overview of the issues facing clients in matters impacted by domestic and family violence. The training module provides a deeper understanding of what domestic and family violence is, how to work in a trauma-informed way and provides resources and tools to assist in representing clients in these matters.

## Learning Outcomes

By the end of the training, participants will be able to:

1. understand issues relating to domestic and family violence including the types of behaviour, prevalence and impacts on parenting and children
2. screen clients who are experiencing or using domestic and family violence
3. assess the level of risk in matters involving domestic and family violence
4. respond to safety issues in matters involving domestic and family violence
5. identify intersecting legal and non-legal issues and make appropriate referrals
6. work in a trauma-informed way with people affected by domestic and family violence

## Course Content

### Video

- Domestic and Family Violence Essentials
